

DECORATIVE BRA BACK for UNDERGARMENTS AND CLOTHING

FIELD

Decorative bra back, for bras, undergarments and garments that incorporate the same.

BACKGROUND

It is recently fashionable for women to wear garments that are sheer and/or allow their bra, bra straps, and bra backs to be seen. As a result the lingerie industry has produced bras and straps that are made in bright attractive colors. While the straps are more attractive and versatile than traditional flesh, white and black straps, there is even more possibility to further enhance comfort and *support*, while retaining decorum in fashion.
